Meter Readings & Billing

Meters are read mid-month. Bills to customers for water, sewer and/or garbage services shall be mailed out no later than the 25th day of each month and are due upon receipt. Failure to receive bills or notices shall not prevent such bills from becoming delinquent and shall not relieve the customer from payment of the same.

Past Due Accounts

The failure of water, sewer and/or garbage customers to timely pay charges duly imposed shall result in the automatic imposition of the following penalties and interest:

- Nonpayment by the 15th of the month in which the bill is due will result in a penalty of ten percent (10%) being applied to the delinquent account.
- Nonpayment by the last day of the month in which the bill is due will result in water being disconnected, provided the payment due is greater than \$75.00.
- Nonpayment for 50 days after the due date will allow the City, in addition to all other rights and remedies, to terminate the account and apply the security deposit towards the outstanding balance.
- All accounts more than 30 days past due shall bear interest until paid at the rate of 1% per month (12% APR) or such other rate as may be set in the future by Resolution of the Council.
- In the event that a customer makes application for water, sewer, or garbage service and it is determined that they have an outstanding balance due to the City, the City is not obligated to supply any such services until such debt is satisfied.

Conditions for Reconnection

When water and sewer service is discontinued for nonpayment of bills will be restored only after bills are paid in full and a service charge is paid for each meter reconnected.

The City, its Mayor, or any duly authorized representative shall have the authority to enforce the provisions of this section by the discontinuance of water service and sewer service in the event any person shall continue to violate the provisions of this section after receiving oral or written notice of the violation from the City.
